### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 21-26, 29 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Orr in view of Wardy. Orr discloses the claimed invention except for (1) the air system being positioned behind the person, (2) two fans, and (3) a portable power supply. As to (1), Wardy teaches that it is known to provide a fan being positioned behind the head of a person as set forth at column 3, lines 13-15 and a portable power supply as set forth at column 4, lines 21-25. It would have been obvious to one having ordinary skill in the art at the time the invention was made to position the fan of Orr behind the person, as taught by Wardy in order to avoid obstruction in a frontal view. As to (2), it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide Orr with two fans, since it has been held that mere duplication of the essential working parts of a device involves only routine skill in the art. *St. Regis Paper Co. v. Bemis Co.*, 193 USPQ 8. As to (3), it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the fan of Orr with a portable power supply, as taught by Wardy in order that the blower may be used away from the cart. As to claim 25, Official Notice is taken that it is

well known to make a roof of a vehicle of insulating material in order to prevent heat radiation there through.

3. Claims 27 and 28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Orr in view of Wardy as applied to claims 21-26, 29 and 30 above, and further in view of Russ. Further, Orr discloses the claimed invention except for the elongated opening in the roof. Russ teaches that it is known to provide an elongated opening in a vehicle roof as set forth at column 4, lines 51-57. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the roof of Orr with an elongated opening, as taught by Russ in order to provide protection for the operator.

#### ***Response to Arguments***

4. Applicant's arguments filed May 24, 2004 have been fully considered but they are not persuasive. Contrary to applicant's remark, Orr does disclose a roof at column 5, lines 2-7. Applicant's remaining arguments have been fully responded to in the above rejection of the claims.

#### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3749

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
